

COMMISSION IMPLEMENTING REGULATION (EU) No 897/2014**of 18 August 2014****laying down specific provisions for the implementation of cross-border cooperation programmes financed under Regulation (EU) No 232/2014 of the European Parliament and the Council establishing a European Neighbourhood Instrument**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 291 thereof,

Having regard to Regulation (EU) No 232/2014 of the European Parliament and of the Council of 11 March 2014 establishing a European Neighbourhood Instrument ⁽¹⁾, and in particular Article 12 thereof,Having regard to the Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action ⁽²⁾, and in particular Article 6(2) thereof,

Whereas:

- (1) One of the strands of Regulation (EU) No 232/2014 involves cooperation between on the one hand one or more Member States of the European Union and, on the other hand, one or more partner countries as defined in its Annex I and/or the Russian Federation taking place along their shared part of the external border of the Union with a view to enhance cross-border cooperation ('CBC').
- (2) Regulation (EU) No 236/2014 lays down rules for implementation of assistance which are common to all instruments for external action.
- (3) Regulation (EU) No 232/2014 stipulates that implementing rules laying down specific provisions for the implementation of cross-border cooperation programmes shall be adopted. Those rules shall include provisions on, inter alia, the rate and methods of co-financing; the content, preparation, modification and closure of joint operational programmes; the role and function of the programme structures, including their standing, effective identification, accountability and responsibility, description of management and control systems, and conditions on the technical and financial management of Union support; recovery procedures in all participating countries; monitoring and evaluation; visibility and information activities; shared and indirect management.
- (4) The programming document provided for in Article 9(1) of Regulation (EU) No 232/2014 establishes the strategic objectives to be pursued by cross-border cooperation and the thematic objectives and expected indicative results of that cooperation and contains the list of joint operational programmes to be established.
- (5) Cross-border cooperation should be implemented through multi-annual joint operational programmes covering cooperation for a border or a group of borders and comprising multi-annual priorities that pursue a consistent set of thematic objectives and that may be implemented with the Union support.
- (6) It is necessary to draw up implementing rules which lay down detailed provisions for the implementation of cross-border cooperation programmes financed under Regulation (EU) No 232/2014, while allowing participating countries a certain amount of flexibility as to the detailed arrangements regarding organisation and implementation of specific programmes taking account of the particular features of each programme. On the basis of this principle and in accordance with this Regulation, the participating countries should jointly submit proposals for joint operational programmes to the Commission for adoption in accordance with Article 10(4) of Regulation (EU) No 232/2014.
- (7) Taking into account that all participating countries are to be involved in the decision-making structures of the programme while implementation tasks are usually entrusted to a managing authority based in a Member State, there is a need for rules governing the organisational structure covering the functions of managing authority and the division of functions between and within each body being part of the programme structures.

⁽¹⁾ OJ L 77, 15.3.2014, p. 27.⁽²⁾ OJ L 77, 15.3.2014, p. 95.

- (8) Based on lessons learnt from the 2007-2013 programming period, the Commission will not automatically bear the final responsibility for recoveries in partner countries. Therefore new provisions have been set out in the implementing rules giving more responsibilities to the participating countries in terms of management, control and audit. The programmes will have to define their own management and control systems based on these rules. The partner countries will have to assist the managing authorities in the implementation of the programmes by setting up national authorities, control contact points and group of auditors.
- (9) In accordance with Article 10(8) of Regulation (EU) No 232/2014 where necessary, agreements shall be signed between the participating countries and the managing authority to set out provisions not included in the financing agreements signed with partner countries or the Russian Federation.
- (10) Based on lessons learnt from the 2007-2013 programming period, grant award procedures and rules developed by the Commission for external actions will not anymore be compulsory. The programmes should be allowed to apply procedures developed by the participating countries provided certain standards set out in this Regulation are met.
- (11) In accordance with Article 7(7) of Regulation (EU) No 232/2014 funding under this Regulation can be pooled with funding under other relevant Union Regulations. This will allow a transfer of funding from Regulation (EU) No 232/2014 to programmes financed under Regulation (EU) No 1299/2013 of the European Parliament and of the Council ⁽¹⁾. The equivalent rule exists in Regulation (EU) No 231/2014 of the European Parliament and of the Council ⁽²⁾ for funding to be transferred to Regulation (EU) No 232/2014 to cover the participation of the latter's beneficiaries in the cross-border cooperation programmes subject to this Regulation. These new rules will simplify the management procedures for these countries' participation in the programmes.
- (12) Since programmes are usually to be implemented through shared management, management and control systems should be in line with Union rules, in particular Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council ⁽³⁾ and Commission Delegated Regulation (EU) No 1268/2012 ⁽⁴⁾, as well as with Council Regulation (EC, Euratom) No 2988/95 ⁽⁵⁾. The Commission should ensure that Union funds are used in accordance with the applicable rules during the implementation of the programmes.
- (13) These measures are in line with the opinion of the Committee established by Regulation (EU) No 232/2014.
- (14) In order to allow for timely programming and implementation of programmes, this Regulation should enter into force on the third day following its publication in the *Official Journal of the European Union*,

HAS ADOPTED THIS REGULATION:

3. Subsequently the Commission shall make the corresponding commitment each financial year no later than 1 May. The amount of the annual commitments shall be determined in accordance with the financial plan taking into account the programme's progress and the availability of funds. The Commission shall inform the Managing Authority when the annual commitment is made.

From the second financial year, requests for prefinancing shall be accompanied by the provisional budget detailing the Managing Authority's commitments and payments for the two accounting years following the latest audit opinion referred to in Article 68. After reviewing that provisional budget, assessing actual financing needs of the programme and verifying the availability of funds, the Commission shall proceed with the payment of all or part of the requested prefinancing no later than 60 days after the date on which the payment request is registered with the Commission.
2. In the course of the financial year, the Managing Authority may ask for the transfer of all or part of the funds already committed, as additional prefinancing. In support of its request, the Managing Authority shall submit an interim financial report showing that the expenditure actually incurred or likely to be incurred before the end of the financial year exceeds the amount of prefinancing already paid. Such subsequent transfers shall constitute additional prefinancing provided they are not supported by an audit opinion referred to in Article 68.

In the case of a systemic irregularity, the Managing Authority shall extend its investigation to cover all operations potentially affected.

The Managing Authority shall make the financial corrections required in connection with individual or systemic irregularities detected in projects, technical assistance or in the programme. Financial corrections shall consist of cancelling all or part of the Union contribution to a project or to technical assistance. The Managing Authority shall take into account the nature and gravity of the irregularities and the financial loss and shall apply a proportionate financial correction. Financial corrections shall be recorded in the annual accounts by the Managing Authority for the accounting year in which the cancellation is decided.

2. The Union contribution cancelled in accordance with paragraph 1 may be reused within the concerned programme, subject to paragraph 3.
3. The contribution cancelled in accordance with paragraph 1 may not be reused for the project that was the subject of a financial correction or, where a financial correction is made for a systemic irregularity and for any project affected by the systemic irregularity.

*Article 72***Financial corrections by the Commission**

1. The Commission shall make financial corrections by cancelling all or part of the Union contribution to a programme and effecting recovery from the Managing Authority in order to exclude from Union financing expenditure which is in breach of applicable law or related to deficiencies in the programme management and control systems which have been detected by the Commission or the European Court of Auditors.
2. A breach of applicable law shall lead to a financial correction only in relation to expenditure which has been declared to the Commission and where one of the following conditions is met:

 - (b) the breach has affected the amount of expenditure declared by the programme or in cases where, due to the nature of the breach, it is not possible to quantify its financial impact but there is a substantiated risk that the breach has had such an effect.

3. In particular the Commission shall make financial corrections where, after carrying out the necessary examination, it draws any of the following conclusions:

- (a) there is a serious deficiency in the programme management and control systems of the programme which has put at risk the Union contribution already paid;

- (c) the expenditure declared in the annual or final report is irregular and has not been corrected by the Managing Authority prior to the opening of the financial correction procedure under this paragraph.

The Commission shall base its financial corrections on individual cases of irregularity identified and shall take account of whether an irregularity is systemic. When it is not possible to quantify precisely the amount of irregular expenditure, the Commission shall apply a flat rate or extrapolated financial correction.

4. The Commission shall, when deciding the amount of a financial correction under paragraph 3, respect the principle of proportionality taking into account the nature and gravity of the irregularity and the extent and financial implications of the deficiencies in management and control systems found in the programme.

5. Where the Commission bases its position on reports of auditors other than those of its own services, it shall draw its own conclusions regarding the financial consequences after having heard the Managing Authority and the auditors.

6. The closure of the programme shall not prejudice the Commission's right to undertake, at a later stage, financial corrections vis-à-vis the Managing Authority.

7. The criteria for establishing the level of financial correction to be applied and the criteria for applying flat rates or extrapolated financial correction are those adopted in accordance with Regulation (EU) No 1303/2013 ⁽¹⁾, in particular Article 144, as well as those contained in the Commission Decision of 19 December 2013 ⁽²⁾.

Article 73

Procedure

1. Before taking a decision on a financial correction, the Commission shall inform the Managing Authority of the provisional conclusions of its examination and request the Managing Authority to submit its comments within two months.

2. Where the Commission proposes a financial correction on the basis of extrapolation or a flat rate, the Managing Authority shall be given the opportunity to demonstrate through an examination of the documentation concerned that the actual extent of irregularity is less than the Commission's assessment. In agreement with the Commission, the Managing Authority may limit the scope of that examination to an appropriate proportion or sample of the documentation concerned. Except in duly justified cases, the time allowed for that examination shall not exceed a further period of two months after the two-month period referred to in paragraph 1.

⁽¹⁾ Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 1083/2006 (OJ L 347, 20.12.2013, p. 320).

⁽²⁾ Commission Decision of 19 December 2013 on the setting out and approval of the guidelines for determining financial corrections to be made by the Commission to expenditure financed by the Union under shared management for non-compliance with the rules on public procurement (C(2013)9527).

3. The Commission shall take account of any evidence supplied by the Managing Authority within the time limits set out in paragraphs 1 and 2.
4. Where the Managing Authority does not accept the provisional conclusions of the Commission, the Managing Authority shall be invited to a hearing by the Commission, to ensure that all relevant information and observations are available for the conclusions of the Commission on the application of the financial correction.
5. In case of an agreement and without prejudice to paragraph 6, the Managing Authority may reuse the cancelled contribution for the concerned programme in accordance with Article 71(2).
6. In order to apply financial corrections, the Commission shall take a decision within six months of the date of the hearing or of the date of receipt of additional information where the Managing Authority agrees to submit such additional information following the hearing. The Commission shall take account of all information and observations submitted during the course of the procedure. If no hearing takes place, the six-month period shall begin to run two months after the date of the invitation letter to the hearing sent by the Commission.
7. Where the Commission or the European Court of Auditors detect irregularities demonstrating a serious deficiency in the effective functioning of the management and control systems, the resulting financial correction shall reduce the Union contribution.

The first subparagraph shall not apply in the case of a serious deficiency in the effective functioning of management and control systems which, prior to the date of detection by the Commission or the European Court of Auditors:

- (a) had been identified in the management declaration, annual control report or the audit opinion submitted to the Commission in accordance with Article 68, or in other audit reports of the Audit Authority submitted to the Commission and appropriate measures taken; or
- (b) had been the subject of appropriate remedial measures by the Managing Authority.

The assessment of serious deficiencies in the effective functioning of management and control systems shall be based on the applicable law when the relevant management declarations, annual control reports and audit opinions were submitted.

When deciding on a financial correction the Commission shall:

- (a) respect the principle of proportionality by taking account of the nature and gravity of the serious deficiency in the effective functioning of a management and control system and its financial implications for the budget of the Union;
- (b) for the purpose of applying a flat rate or extrapolated correction, exclude irregular expenditure previously detected by the Managing Authority which has been the subject of an adjustment in the accounts and expenditure subject to an ongoing assessment of its legality and regularity;
- (c) take into account flat rate or extrapolated corrections applied to the expenditure by the Managing Authority for other serious deficiencies detected by the Managing Authority when determining the residual risk for the budget of the Union.

4. Files transferred to a participating country or to the Commission shall contain all the documents needed for recovery as well as proof of steps taken by the Managing Authority to recover the due amounts.
5. Contracts concluded by the Managing Authority shall contain a clause allowing the Commission or the participating country in which the beneficiary is established to recover any amounts due to the Managing Authority which the latter was not able to recover.

The rate of such interest shall be three and a half percentage points above the rate applied by the European Central Bank in its main refinancing operations on the first working day of the month in which the due date falls.
